PURVI CHEMICALS

Pioneering the chemical chains across industries

Established in 1975 as a chemical trading company, Purvi Chemicals today is one of the leading suppliers of chemicals across the industry. Since inception, Purvi Chemicals has always been driven by the needs and requirements of its customers, hence venturing into re-packing of chemicals and supplying them to various industries, with discerning packing needs.

Its ability to identify niche products, introduce new products and educate about them, led Purvi Chemicals to be a forerunner in the industry and known as the one-stop solution for various chemical requirements.

The year 1978-79 brought in a new dawn of growth for the company as, it partnered with various manufacturers for its chemical requirement like, the New India Industries (Camera manufacturer), Susan Textile, Sarabhai Chemicals, Dinesh Mill & Spectacle Frame manufacturer. To meet up with the growing demand from various industries, Purvi Chemicals began to deal in imported chemicals & lab chemicals heavily used in Research and Development. At this front, Maharaja Sayajirao University, Sarabhai research Centre and Gujarat State Fertilizer & Chemicals Limited, Govt. of Gujarat (GSFC) were the most prestigious clients in company's kitty.

In 1980, the market realized the presence and prominence of the company. Gujarat Alkalies and Chemicals Limited (GACL), promoted by Government of Gujarat (India), offered its wide range of chemicals and leveraged the strong supply chain and industrial connect Purvi Chemicals had. This marked the beginning of a golden era in company's history. This strategic association with GACL (single largest producer of Caustic Soda in India and production capacity of 1087 TPD, accredited with ISO 9001:2008, ISO 14001:2004, BS OHSAS 18001:2007, and ISO 50001:2011), sales of the company saw soaring heights.

Laboratory chemicals happen to be one of the core businesses for Purvi Chemicals. Its association and affiliation with HiMedia Laboratories Pvt. Ltd. is a collaboration of companies with identical values and corporate culture. HiMedia Laboratories is established by professionals and technologists for manufacturing high quality culture media for microbiology. And today with a presence in more than 125 countries, it is amongst the top three brands in microbiology in the world. Over years it has successfully created a rich portfolio of exemplary quality products.

Committed to deliver excellence, HiMedia owns an in-house bulk raw materials manufacturing plant, enabling to maintain consistent quality products conforming to ISO 9001:2008 and ISO 13485:2003 and WHO:GMP. It's technical product-service package globally enables patrons to tap into the expertise of its Central Laboratory thereby customizing products to suit their needs.

Purvi Chemicals has always gone beyond their limitations and strived towards achieving its set goals in the most optimum ways.

Message from Founder

It is my pleasure to introduce Purvi Chemicals as one of the leading chemical suppliers in the country. We have been dealing in wide range of Industrial and Laboratory chemicals since last 4 decades. It is an honour for us to be associated with Gujarat Alkalies and Chemicals Limited (GACL) & HIMEDIA laboratories as their authorized distributor in India.

Our QHSE En policy reflects our goals and commitments. Our long association with the Chemical Industry has enabled us to understand and meet the requirements of industries with diverse scale and setup. We continually strive towards excelling and improving our service and offer quality products. It is only our customer centric approach, that Purvi Chemicals has been able to achieve not just best of quality and price, but prompt deliver and service recognition in Industry.

We are proud to be associated with corporate giants like, Sterling Biotech, Qualikems Fine Chem Pvt. Ltd, Food and Drugs Laboratory, Gujarat Alkalies and Chemicals Limited, Gujarat State Fertilizers & Chemicals Limited, HIMEDIA, Gujarat State Electricity Corporation Limited, Alembic Pharmaceuticals Limited, M.S. University, Sun Pharmaceutical Industries Ltd. and many more.

Mr. Bhupendra Lakhawala
Founder, Purvi Chemicals

Vision

To be known as for our highest ethical standards and values. To be identified as a strategic sourcing partner for our customers in improving productivity, efficiency and effectiveness of their operations.

Mission

By adopting a customer centric approach to meet the needs of our customers, serve and connect our diverse customer base across the country and throughout world.

Factory

Purvi Chemicals is an authorized dealer of GACL which has two units located at Vadodara and Dahej in Gujarat. It has integrated manufacturing facilities for Caustic Soda, Chlorine, Hydrogen Gas, Hydrochloric Acid, Chloromethanes, Hydrogen Peroxide, Phosphoric Acid, Potassium Hydroxide, Potassium Carbonate, Sodium Cyanide, Sodium Ferro Cyanide. The Dahej unit also has 90 MW Captive Power Plant (CPP) for regular and economical power supply. The construction of our factory is extremely safe and work-friendly. We also follow an extensive procedure for the maintenance of our machines and systems to ensure further safety of our employees.

Latest technology is adopted to enhance efficiency and productivity. Our technology and systems are in complete consideration of the packing and services we offer.

Team

At Purvi Chemicals we have an efficient and skilled workforce. It is only their efforts, skills and dedication that Purvi Chemicals today is at new heights of success.

At Purvi Chemicals, each of our employees is committed to contribute not only to the growth of the company, but also to ensure and maintain synergy in the Chemical Industry.

Our Strength

Economy of Size

State-of-the-art Technology

Integrated Downstream Plants

Network of Marketing and Distribution

In-house Research and Development

Dedicated Manpower

Excellent Industrial Relations

Proximity to Raw Material Sources and Market

Quality Standards

We are committed to utmost customer satisfaction, which is the driving force for progress. Adhering to international standards, with no laxity in any sphere, we are successfully a favoured supplier for our range of products. To consolidate this and to gain international credibility, we had obtained management system certification under ISO 9001:2008, ISO 14001:2004, BS OHSAS 18001:2007, ISO 50001:2011, ISO 13485:2003 and WHO:GMP.

Product Details

We take immense pride in catering to following industries and contributing in their growth:

Paint and Coating Industry
Water Treatment
Construction Chemicals
Food and Beverages Industry
Printing Ink Industry
Oil & Gas Industry
Soap & Detergent Industry

Pharmaceutical Industry
Laboratory Chemicals
Plastics and Rubber Industry
Adhesives Manufacturer
Ceramics Industry
Metal Industry
Textiles and Garment Industry

Lab Chemicals

Microbiology
Animal Cell Culture
Plant Tissue Culture
Molecular Biology

Density Gradient Separation Media
Chemicals
Laboratory Aids & Equipments

Caustic Soda Group

Caustic Soda Lye
Caustic Soda Flakes
Caustic Soda Prills
Liquid Chlorine
Hydrochloric Acid
Compressed Hydrogen Gas

Special Chlorine Derivatives Group

Anhydrous Aluminium Chloride
Chlorinated Paraffin
Benzyl Alcohol
Benzaldehyde
Benzyl Chloride

Sodium Cyanide Group

Sodium Cyanide
Sodium Ferrocyanide

Caustic Potash Group

Caustic Potash Lye
Caustic Potash Flakes
Potassium Carbonate

Chloromethane Group

Methylene Chloride
Chloroform
Carbon Tetrachloride

Calcium Chloride Group

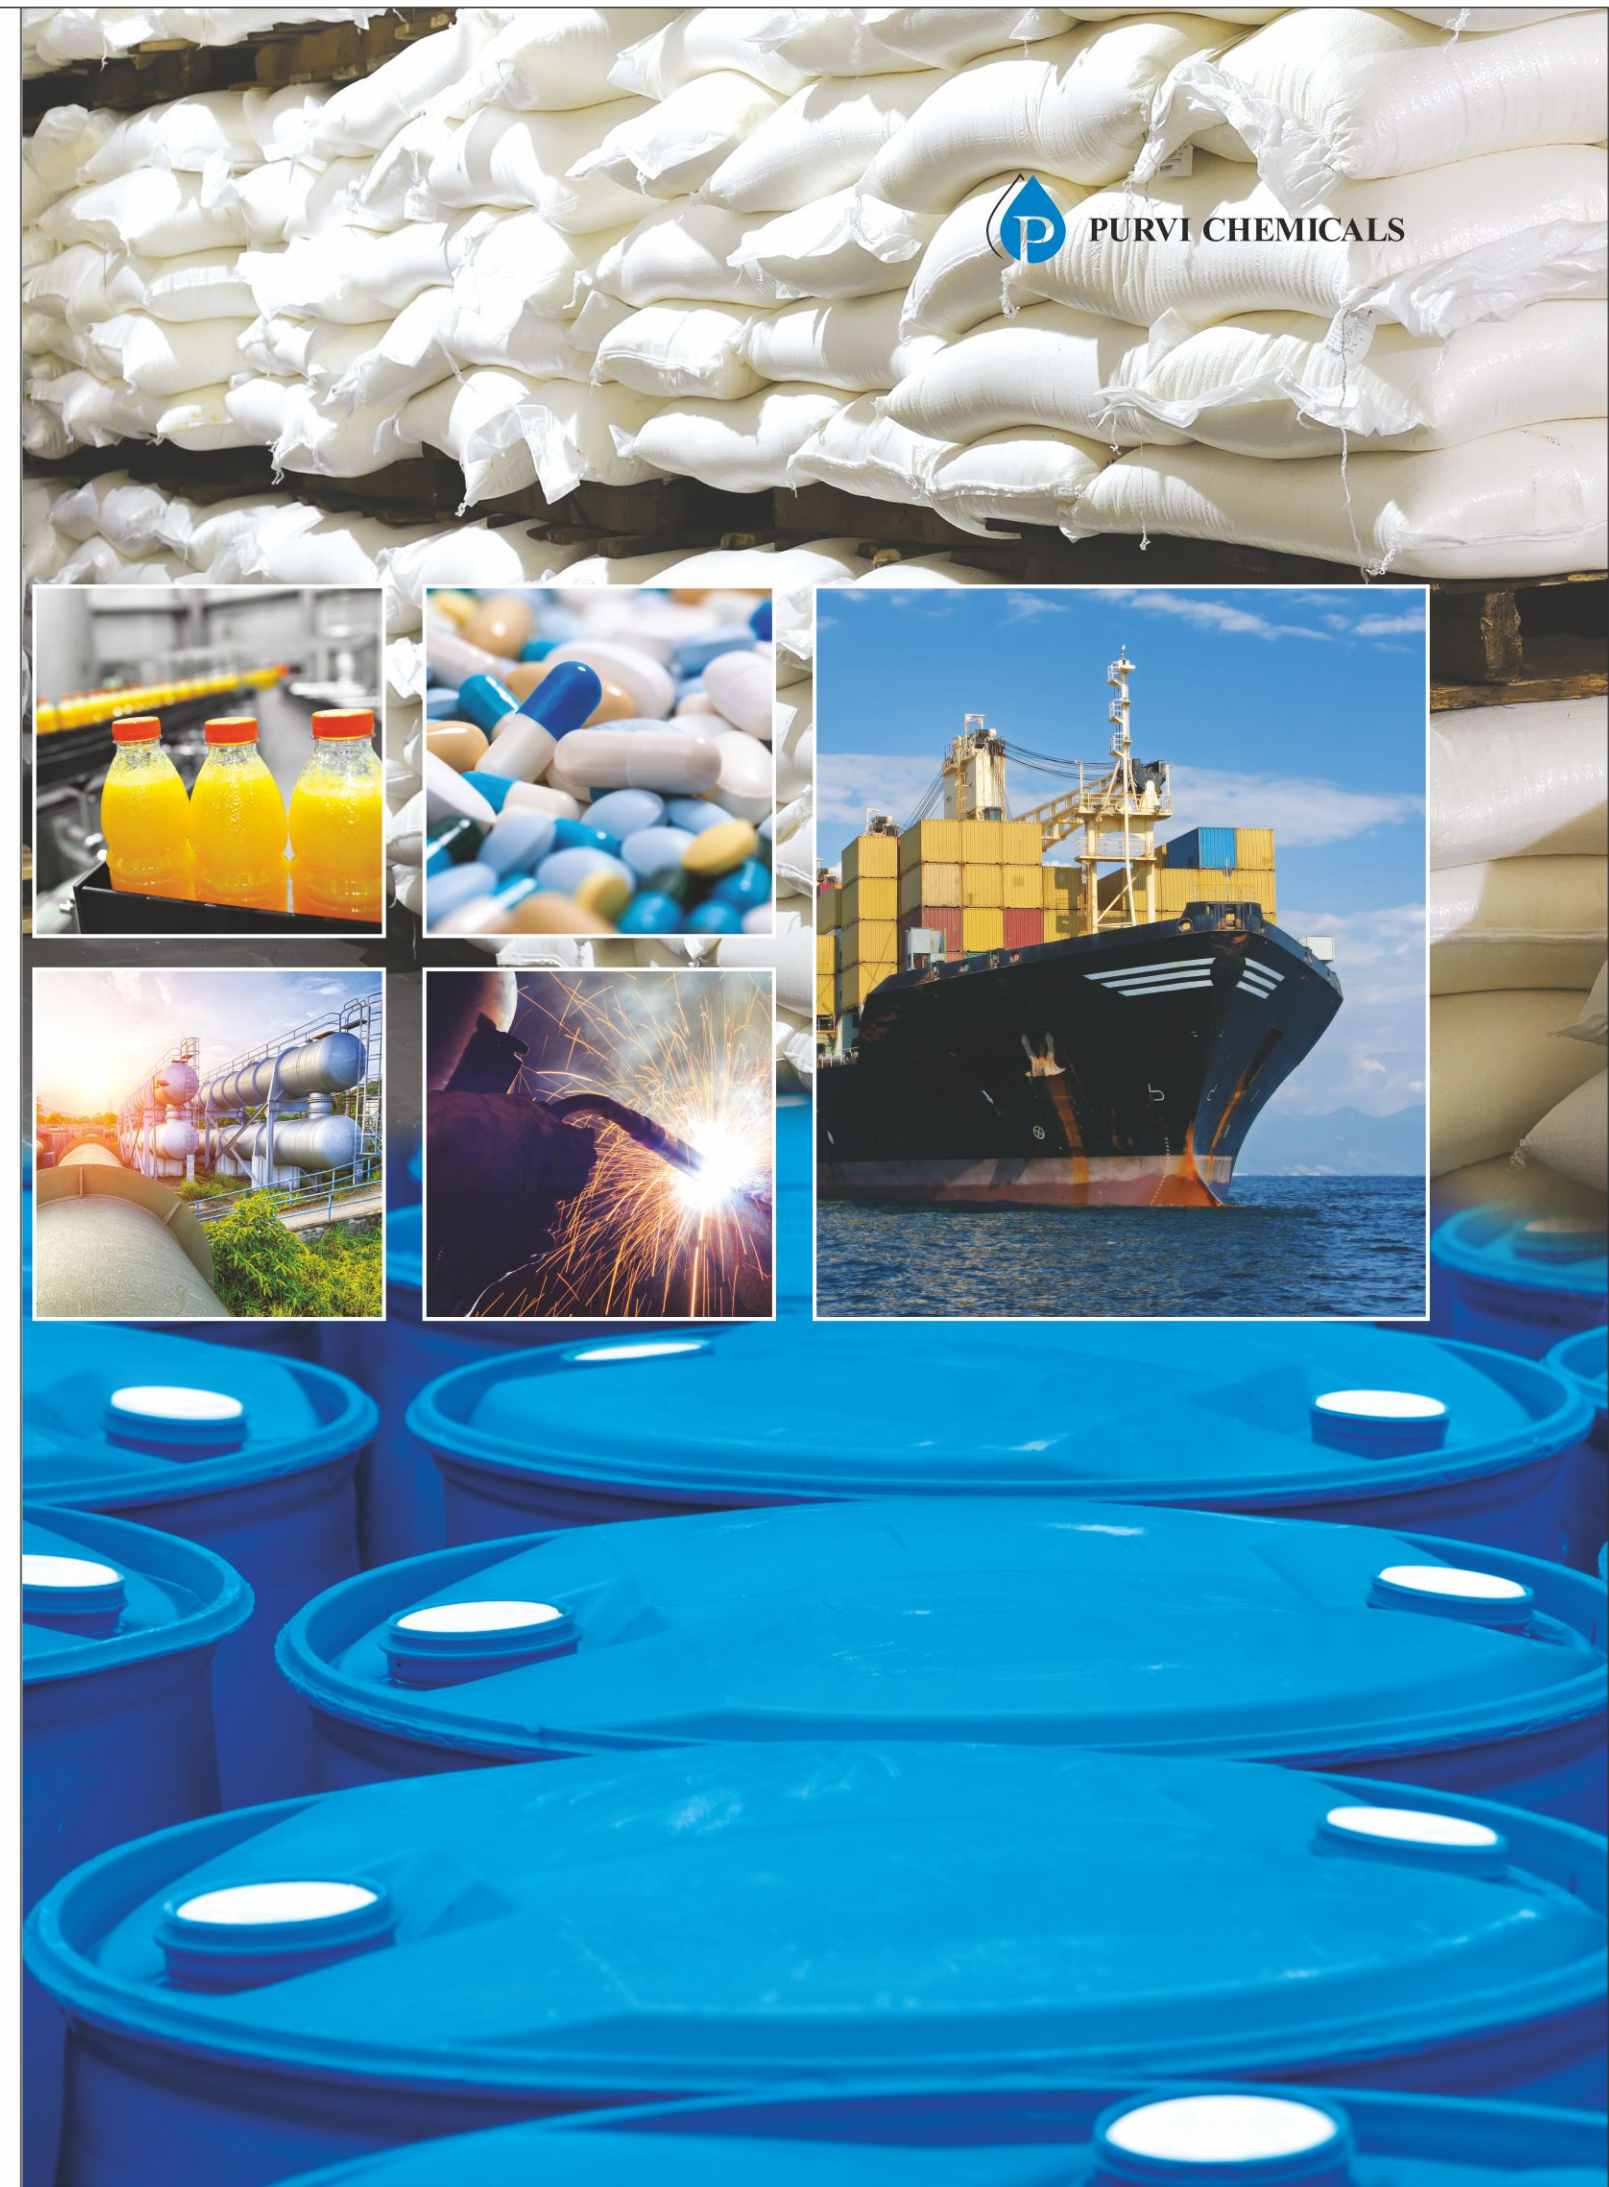

Calcium Chloride Powder
Liquid Carbon Dioxide

Hydrogen Peroxide Group

Hydrogen Peroxide

Water Treatment Group

Bleachwin
Scalewin
Poly Aluminum Chloride
Biowin
Stable Bleaching Powder
